HOUSE AND LAND TAX.

The House and Land Tax is assessed on the capital value and is levied at the following rates :—

per
mille.

(1) Property not built upon :—

- | | |
|---|----|
| (a) Lands, fields, vineyards, gardens, subject to tithe, or to the equivalent of tithe (Badal-ushur), or changed into land of the muqataa category .. | 4 |
| (b) Land destined for building purposes .. | 4 |
| (c) Lands not paying tithe, nor paying the equivalent of tithe, nor changed into muqataa land .. | 10 |

(2) Property built upon :—

- | | |
|---|----|
| (a) Farm buildings .. | 4 |
| (b) Farm buildings hired and occupied by tenants not exceeding 200,000 mils. capital value .. | 5 |
| (c) Farm buildings hired or occupied by tenant exceeding 200,000 mils. capital value .. | 8 |
| (d) Farm buildings within the area of a town or village .. | 5 |
| (e) Wakf buildings (mussaqaat waqfiyeh) .. | 4 |
| (f) Houses inhabited by the proprietors, the value of which is below 200,000 mils. .. | 5 |
| (g) Houses inhabited by the proprietors, the value of which is over 200,000 mils. .. | 8 |
| (h) Buildings leased or rented by their owners .. | 10 |

Additions to this tax aggregating 41% on buildings and 56% on lands were made from time to time under Ottoman Decrees. These additions are still collected, except in the case of buildings and lands re-assessed since 1919. Immoveable property registered in the names of corporate bodies is subject to an additional tax varying from $\frac{1}{2}$ to 1 per mille of its assessed value.

In the townships of Haifa, Acre and Shefr Amr, a roofed property tax is levied in lieu. This tax is assessed at 3 $\frac{1}{3}$ % of the gross income of buildings with the exception of farm buildings, which are exempt.

Exemption is granted in respect of the buildings of recognised Charitable and Religious Institutions and buildings and playgrounds owned and maintained by recognised Educational Institutions, provided the buildings are used solely for charitable, religious or educational purposes and are not revenue producing.

The urban property tax Ordinance provides for the assessment of the net annual value of immovable property in urban areas with a view to the imposition of a tax to replace the House and Land Tax (Werko), the tax on buildings (Musaqaat) and Badal Ushur. The new tax is payable by the reputed owner of the property at such annual rates, not exceeding 10 per centum of the net annual value of house property and land, as may be prescribed for the various categories of property. The Ordinance also provides for a revision every year and a general re-assessment every fifth year.

The Ordinance has been applied in 1929 to the towns of Jerusalem, Jaffa (including Tel-Aviv and Sarona) Gaza, Ramleh, Lydda, Tulkarem and Beisan at rates varying from 6% to 9% of the net annual value.

Exemption is granted in the following cases :—

- Properties which formerly enjoyed exemption in respect of House and Land Tax ;
- House property occupied by the registered owner of which the net annual value is less than the sum specified by order and in no case exceeding £P.20 ;
- Newly constructed house property.

The High Commissioner may remit wholly or in part the tax on playing fields, open spaces accessible to the public, and property on which building is prohibited or restricted under town planning orders.

TITHE.

The Commuted tithe has now replaced the Tithe except in the case of a small number of Bedu tribal areas in the Beersheba Sub-District; where the tithe at the rate of 10 per centum of the produce of the land is still collected in money.

Exemption from tithe is granted in respect of fuel wood, vegetables which cannot be preserved, vines grafted on American stock for ten years after planting, cotton, hay from village pasture lands, tobacco and the produce of land utilised for agricultural instruction or research.

The Commuted Tithe is based on the average aggregate amount of tithe assessed as payable during the four years preceding the application of the Commuted Tithe and is apportioned among reputed owners of titheable land in proportion to the potential productivity of their holdings as ascertained by Village Assessment Committees.

SECTION VII.

MUNICIPALITIES AND OTHER LOCAL BODIES.

1. There are 22 Municipalities in Palestine, of which 10 are in the Northern District, 8 in the Southern District and 4 in the Jerusalem Division. All Municipalities were created under the Ottoman regime and were governed by the Ottoman Wilayet Municipal Law of the 5th October, 1877.

2. Election to Municipal Councils is now regulated by the Municipal Franchise Ordinance, 1926.

The qualifications of voters are :—

- (a) Palestinian citizenship.
- (b) Not less than 25 years of age.
- (c) Not to have been sentenced to a term of imprisonment of one year or upwards.
- (d) A payment, within 12 months preceding the date of the preparation of the Register of Voters of tax to an annual amount of at least 500 mils on immovable property owned within the Municipal Area ; or payment of Municipal rates to an amount of at least £P.1 ; or separate occupation of premises within the Municipal Area on which rates to that amount have been paid within the preceding 12 months.

3. Qualifications of members of the Council are :—

- (a) A place of residence within the Municipal Area.
- (b) Not less than 30 years of age.
- (c) A payment within 12 months preceding the date of the Ordinance of taxes of at least £P.1 on immovable property owned within the Municipal Area, or of municipal rates to an amount of at least £P.2, or separate occupation of premises within the Municipal Area on which Municipal rates to an amount of at least £P.2 have been paid within the preceding 12 months.

- (e) Not to have an interest directly or indirectly in any contract with, by or on behalf of the Municipality.

4. The functions, powers and duties of Municipal Councils are derived from and imposed by the Ottoman Wilayet Municipal Law, 1877 (principally Sections 3 and 62) as amended by the Municipal Councils Validation Ordinance, 1925 and certain Ordinances enacted since the British Occupation in 1920. The latter Ordinance requires each Council to prepare a budget each year showing the estimated revenue and expenditure and to submit it to a District Commissioner for the approval of Government. It also validates the acts of Municipal Councils appointed since the British Occupation and the imposition of any rates and taxes and the charging of any fees by such Councils.

By the Municipal Loans Ordinance, 1922, Municipal Councils are empowered, subject to the approval of the High Commissioner, to raise loans secured on the property and revenue of the Councils.

The Municipal Courts Ordinance, 1928, empowers the High Commissioner to appoint fit persons of education and standing to be Magistrates of a town. He may, on the recommendation of the Chief Justice, appoint as Chairman of a Municipal Court a Stipendiary Magistrate. Cases within the jurisdiction of the Court are tried by a bench consisting of not less than two members but the Stipendiary Magistrate may try any case sitting alone. The jurisdiction of these Courts extends to any offences against Municipal Regulations and Bye-laws or any offences committed in a Municipal Area which are specified in Chapter III Articles 254 to 265 inclusive of the Ottoman Penal Code or in the following Ordinances.

- (a) The Public Health Ordinance (No. 1). 1918 ;
- (b) The Road Transport Ordinance, 1927 and the Road Transport Amendment Ordinances Nos. 3 and 20, 1924, and No. 38, 1925.
- (c) The Town Planning Ordinance, 1921 ;
- (d) The Intoxicating Liquors and Public Entertainments Ordinance, 1922, and
- (e) The Regulation of Trade and Industries Ordinance, 1927.

The Court is entitled to pass a sentence not exceeding a fine of £P.5 or imprisonment for fifteen days or both these penalties.

Appeal from conviction by a Municipal Court lies to the District Court as of right where the sentence is one of imprisonment, and by leave of the President of a District Court where a fine has been imposed.

5. The revenues of Municipalities are drawn from the following sources—House rates varying to a maximum of 10%, fees for licensing of stalls and booths and street traders, dogs, establishments selling intoxicating liquors, public entertainments, trades and industries, machinery, signboards ; fees for building permits, slaughtering of animals, leases, advertisements, and for specific services ; rents of municipal property ; contributions for the installation of drainage and for the construction of pavements ; auction dues ; grants-in-aid from Government.

LOCAL COUNCILS.

The Local Councils Ordinances Nos. 1 and 2 of 1921, empower the High Commissioner on the recommendation of a District Commissioner by an order published in the Official Gazette to declare that any large village, quarter of a town having a distinctive character, or group of villages shall be administered by a Local Council.

The order may prescribe the composition of the Council.

Councils are invested with juristic personality, and may raise a loan secured on their property and revenues, with the approval of the High Commissioner.

Councils can levy rates on the property of the village or quarter with the sanction of the District Commissioner and may impose, also, a poll tax on the inhabitants and certain fees for licences or otherwise which are authorised by the Law of Municipal Taxation in force from time to time. The rates and fees which may be imposed or charged by any Council are set out in the Order constituting each Council. Under the Regulation of Trades and Industries Ordinance, 1927, a Local Council is given the same powers as a Municipal Council with regard to the regulations of trades and industries carried on within its area which affect public health and public security.

30 Local Councils have been declared in Palestine, 17 in the Northern District, 9 in the Southern District and 4 in the Jerusalem Division.

SECTION XVII.

CURRENCY, BANKING, WEIGHTS AND MEASURES, CALENDARS, LANGUAGES.

CURRENCY.

It was declared by Public Notice that as from the 22nd January, 1921, the following currency only should be legal tender in Palestine :—

Egyptian gold, notes, silver and nickel coins, and the British sovereign at the rate of 97.50 piastres Egyptian. No restriction, however, was placed on the circulation, in the ordinary course of trade, of coins of other currency at their current market rates.

The Order-in-Council dated the 7th February, 1927, Currency Notes Ordinance, 1927, and the Proclamation by the High Commissioner under Section 11 (2) of the Order-in-Council provide for the introduction of a Palestine currency consisting of coins and currency notes with effect from the 1st November, 1927. Other legislation relative to currency is contained in the Currency Substitution Ordinance, 1927, the Coinage Ordinance, 1927, the Bank Notes Forgery Ordinance, 1927, and the Coinage Amendment Ordinance, 1929.

A Currency Board has been constituted to provide for and to control the supply of currency, to ensure that the currency is maintained in satisfactory condition and generally to watch over the interests of Palestine as far as currency is concerned. The Board makes arrangements for minting of coins, printing of currency notes, and investment of the funds of the Board.

The Board authorises the issue of currency in Palestine against repayment in London ; and arranges for issue, against currency tendered in Palestine, of drafts or telegraphic transfers payable in sterling in London.

The proceeds of the sale of coin and currency notes and all other revenue of the Board are, after the necessary deductions have been made for all expenses and for any contributions made to the revenues of Palestine, credited to a Currency Reserve Fund, and any losses which may be incurred are debited to the Fund. Any contribution to the revenues of Palestine is made after the Board and His Majesty's Secretary of State for the Colonies are satisfied that the reserves are adequate to ensure the convertibility of the currency and to provide a reasonable reserve against depreciation of investments.

The standard of currency is the Palestine Pound divided into 1,000 mils. The Palestine Currency Order provides for a gold coin of one Palestine Pound containing 123.27447 grains of standard gold (the equivalent of the English Pound) : it is not intended at present to introduce gold coins. Silver coins of 100 and 50 mils, nickel-bronze coins of 20, 10 and 5 mils, and bronze coins of 2 and 1 mils are in use. Silver coins are legal tender for the payment of £P.2, nickel-bronze coins of 20 and 10 mils are legal tender for the payment of any amount and not exceeding 200 mils, and coins of lower denominations are legal tender for an amount not exceeding 100 mils. Currency notes of £P.100, £P.50, £P.10, £P.5, £P.1, and 500 mils are in use and are legal tender of the amounts expressed therein.

The Currency Board is represented in Jerusalem by the Treasurer of Palestine and by Barclays Bank (Dominion, Colonial and Overseas, Ltd.).

Egyptian gold, notes, silver and nickel coins, and the British gold sovereign were by Proclamation declared not to be legal tender after the 31st March, 1928.

WEIGHTS AND MEASURES.

FORESTRY.

The total area of forests ascertained to date is approximately 350,000 acres of which 5,000 acres are private Eucalyptus and pine forests and the remainder national forests containing trees of various kinds, such as pines, oaks, pistachia, carob, poplar and tamarisk. An area of over 2,000 acres was planted by the Government.

TRADE.

The Headquarters of the Department of Customs, Excise and Trade was transferred from Jerusalem to Haifa on the 1st June.

The law and practice of the Customs Administration were completely restated in a comprehensive Ordinance which clears up the confused state of the law produced by the overlaying of the Ottoman Code by various detailed enactments of the Palestine Government.

A revised Palestine-Syria Customs Agreement came into force on the 1st June, 1929.

The Palestine-Trans-Jordan Transit Agreement was amended to allow of the transit of goods arriving by rail from Egypt.

REVENUE.

The net revenue derived from Customs, Excise and Port Dues in 1929 amounted to £P.1,166,424, compared with £P.1,118,534 in 1928.

The proceeds from excise on tobacco and intoxicating liquors were larger, and from the import duty on benzine and kerosene. The reduced prices of these commodities, as a result of competition between the various oil companies, was to some extent responsible for the increase in imports which produced £P. 193,057, compared with £P. 145,010, in 1928. At one period petrol was sold at 230 mils for four gallons.

The Shell and Vacuum Oil Companies are setting up bulk oil installations at Haifa, into which benzine, kerosene and other fuel oils will be discharged from tankers by pipe lines.

823 motor cars were imported during the year, compared with 1,011 in 1928. The United States of America are still the principal suppliers of motor cars and spare parts, tyres and petrol.

The following statistics of excise revenue reflect the growth of the local industries :—

					Year	Excise Duty £P.	Licence Fees £P.
(a) TOBACCO AND CIGARETTE BANDEROLLES	1926	124,582	5,740
"	"	"	"	..	1927	130,815	5,534

"	"	"	"	..	1928	6,644	10
"	"	"	"	..	1929	6,674	10

The revenue from matches excise now exceeds the duty collected on imported matches previous to 1927.

					Year	Excise Duty £P.
(d) SALT	1928	9,440
"	1929	11,118

Goods valued at £P. 52,737 were imported free of duty by religious, charitable and educational institutions and by Consuls.

The following articles were exempted from Import Duty : ice, sewing cotton imported in hanks and skeins, cylindrical containers of iron or steel, fibre for the manufacture of suit cases and bags, arboricultural and horticultural implements, fittings for pipes and flumes imported for water installations, drainage and irrigation schemes.

The Customs Tariff Amendment Ordinance reduced the duty on dynamite and explosives, largely used in road making and building, from 20% to 10% *ad valorem*; and slightly increased the duty on essences on the basis of alcohol content, to protect the local manufacture.

The value of imports for home consumption was £P. 7,166,593, or £P. 395,775, more than in 1928. The increase was chiefly in respect of industrial machinery, electrical plants, wood prepared for orange cases, Government and Military stores, and fertilisers.

Exports of Palestine produce amounted to £P. 1,554,262, an increase of £P. 67,055 over the preceding year, mainly in respect of water melons, sesame, lentils and oil-cakes.

Raw materials were imported in larger quantities and the export of local raw materials also increased.

The year began with promise of considerable economic development, favoured by climatic conditions and crop prospects, intensive planting of oranges, industrial activity and fresh investment of foreign capital. The disturbances of August, however, combined with a world-wide slump in prices of cereals and vegetable oils brought a severe, though only temporary, depression in their train.

For about a fortnight in August all commercial transactions were at a standstill; a shortage of liquid funds was naturally experienced and there was considerable difficulty in meeting engagements in time. Government accordingly extended by legislation the date for the protest of bills of exchange and Banks granted special facilities for the payment of bills. The number of bills protested, which increased considerably in September and October, became normal in November and December.

THE ORANGE TRADE.

1,722,078 cases of oranges, value £P. 516,621, were exported in 1929. 1,324,486 cases were shipped to the United Kingdom, 244,995 to Germany, 40,270 to Roumania, 33,306 to Holland, 27,231 to Egypt, 26,290 to Denmark, 8,677 to France and 5,462 to Bulgaria. Germany has proved to be a good market, and higher prices were realised there than in the United Kingdom, where only from 10/- to 12/- a case was obtained.

INDUSTRY.

An abundant local crop of olives, with over-production of olive oil in the principal producing countries and a consequent fall in prices, adversely affected local refiners. The price of local edible oil declined from £P. 10.400 mils per 100 kilograms in February to £P. 4.720 mils in December.

The yield of tobacco and tombac in 1929 was about 1,040,000 kilograms, compared with 322,322 in 1928 and 546,742 in 1927.

Fourteen tobacco factories are working; almost the entire cigarette manufacture is controlled by the British-American Tobacco Company.

1929	531,887	20,107	100,127	1,209

28 tons of leaf tobacco, value £P. 5,511, were exported to Poland,

Imports of cigarettes continue to decline, as the quality of the local brands improves,

The tobacco legislation was amended by Ordinances which provide for the control of the sale of cigarette paper, to protect the local industry; for the granting of licences to growers of tobacco, and for fixing a minimum area of two dunums (half an acre) for its cultivation.

The cement company of Haifa worked at full capacity during the year. Only 7,983 tons of cement were imported into Palestine, compared with 14,204 tons in 1928 and 23,300 in 1927 while, the export amounted to 7,639 tons.

The export of wines and liquors decreased slightly. 17,150 litres of pure alcohol were exported to Egypt.

Certain minor amendments were made in the law with regard to the manufacture of intoxicating liquors in order to strengthen the control of the Excise Authorities.

The knitting industry is making progress. £P.18,919 worth of stockings was exported in 1929.

An export trade is growing, encouraged by Government assistance in tariff and exemptions, in upper and sole leather and leather goods: the value of exports in 1929 was about £P. 16,000.

The artificial teeth factory in Tel-Aviv is firmly established. It sells practically the whole of its production in England, to an annual value of about £P.10,000.

The local production of matches was 133,480 gross: this is some 20,000 gross less than the demand. The licence duty payable by the manufacturers of matches was increased to £P. 50.

£P. 4.901 worth of locally manufactured essences was exported, which is twice as much as in 1928.

The development of cooperative enterprise was illustrated at the Tel-Aviv Exhibition held in the spring in a special section devoted to the exhibits of cooperative producers associations.

NEW UNDERTAKINGS.

Among undertakings established in 1929 may be mentioned a cold storage company, and factories for the manufacture of preserved fruits, and syrups from lemons and oranges, safety matches, cardboard boxes, mirrors, neckties and shawls, oxygen and envelopes.

CENSUS OF INDUSTRIES, 1928.

A Census of Industries taken in 1928 shows that there were then 3,505 producing enterprises employing 17,955 persons, of whom 10,186 were wage earners, 5,547 owners and their relatives, 1,441 contract labourers 408 clerks, and 373 technical employees.

The capital invested was £P. 3,514,886, the value of the net output about £P. 4,000,000 and the raw materials consumed annually average £P.2,400,000.

No. 3. SUMMARY OF AVERAGE DAILY WAGES IN MILS.

AGRICULTURE						Jews	Non-Jews
Skilled	250-350	150-250
Unskilled	175-220	80-120
Women and children	150-200	50-100

Unskilled	200-300	100-160
DOMESTIC SERVICE †	80-200	80-150

* Owing to the wide variations in rates it is difficult to calculate a reasonable average for skilled and unskilled workers in industry.

The differences in the size of industrial units, and the cultural and social distinctions in employers and employed cause rates to diverge sharply, although a growing approximation between the wages of Jewish and non-Jewish workers is apparent for skilled work ; for unskilled work there is a wider discrepancy.

URGENT TELEGRAMS—Urgent telegrams are accepted for most foreign countries at triple the rate for ordinary telegrams.

CUSTOM HOUSE DECLARATION.

Two copies of the Customs declaration must be attached to the Despatch Note of every incoming foreign parcel. For outgoing foreign parcels the number of copies varies according to the country of destination but in no case is it less than two.

UNDELIVERED PARCELS.

Undelivered parcels are disposed of according to the sender's instructions, which should be furnished on the reverse side of the Despatch Note. When such instructions are not furnished, the parcel is returned to origin at the expiration of one month from the date of receipt in Palestine.

COLLECTION OF TRADE CHARGES.

(REIMBOURSEMENT SYSTEM.)

A "Cash on Delivery" Parcel Post Service with the United Kingdom and Egypt only is in operation. "Cash on Delivery" parcels may be accepted for posting at all Post Offices and Branch Offices in Palestine and may be addressed for delivery at any destination in Palestine.

FEES PAYABLE AND TRADE CHARGE.

The sender must prepay, by means of postage stamps affixed to the Despatch Note, a special Cash on Delivery fee at the rate of 1 per cent. of the amount of the Trade Charge with a minimum of 10 mils plus a fixed "posting fee" of 10 mils per parcel. These fees are additional to the ordinary postage and other charges.

The maximum trade charge per parcel is £P.40.

A delivery fee of 15 mils is collected from the addressee of a "Cash on Delivery" parcel in addition to the amount of the trade charge.

INSURANCE OF PARCELS AND BOXES.

Parcels may be insured to all countries which undertake such service.

The maximum amount for which a parcel can be insured varies according to the country of destination, but in no case may it exceed £P.120. A parcel may not be insured for an amount exceeding the real value of the contents and the cost of packing.

Insured parcels must be very strongly packed and sealed in accordance with the regulations.

The fee for insurance, including registration but in addition to the ordinary postage, is 20 mils for the first £P.12 or part thereof of the insured value and 7 mils for each additional £P.12 or part thereof.

Every insured parcel containing coin or bullion, watches, precious stones, jewellery, or any article of gold or silver, must be enclosed in a strong box or case (measuring, if the contents are jewellery exceeding £P.100 in value, at least 105 centimetres in length and girth combined), must be sewn up, or otherwise fastened, in a wrapper of linen, canvas, strong paper, or other substantial material and must have the address written on its actual covering. The seals must be placed along the edges of each join or loose flap at distances of not more than 75 millimetres apart.

Parcels may not exceed 10 kilogrammes in weight and for many countries, including Egypt, the maximum weight allowed is 5 kilogrammes.

The maximum length allowed is 105 centimetres.

The maximum length and girth combined, 180 centimetres.

Parcels addressed to foreign countries should generally be packed in tin, canvas, linen or similar material and with due regard to the length of journey, conditions of transit, climate, etc.—not merely in paper or cardboard—and in a manner calculated adequately to protect the contents from damage through contact with other parcels.

An Advice of Delivery of a registered or insured parcel may be obtained on payment of the sum of 13 mils either at the time of posting or subsequently.

INSURED BOX SERVICE (FOREIGN ONLY).

Articles of gold and silver, precious stones, jewellery and other articles of a like nature which are prohibited from transmission in insured letters, may generally be sent in the Letter Mails as insured boxes.

The undermentioned classes of articles are prohibited from transmission in insured boxes to Great Britain :—

Clocks, watches and the principal parts thereof.

Cinematograph films ; letters or notes which may serve as a substitute for correspondence. Current coin, bank-notes, securities payable to bearer, bonds and articles included in the category of commercial papers. It is, however, permissible to insert in the packet an open invoice and also a simple copy of the address of the packet and the sender.

An insured box must not exceed 1 kilogramme in weight or measure more than 30 centimetres in breadth and 10 centimetres in depth. The sides of the wooden box must be at least 8 millimetres thick.

It must be tied round cross-wise with a single strong string (not two or more pieces joined together), the two ends of the string being held firmly together under a seal of fine wax bearing a private mark. All seals on the four sides of the packet must be identical with that used for sealing the ends of the string.

The boxes must not be wrapped in paper.

Insured boxes are subject to the Customs Regulations and must be accompanied by the appropriate forms, which should be most carefully prepared.

No box can be insured for more than its actual value or the limit of insurance allowed.

Postage and insurance fee must be fully prepaid.

The rate of postage is 8 mils per 50 grammes with a minimum charge of 40 mils. The fee for insurance and the limits of insurance are the same as for insured letters to places abroad.

An Advice of Delivery of an insured box may be obtained on payment of a fee of 13 mils either at the time of posting or subsequently.
